## Project Responsibility

Mr. Fitch is a Principal and Project Manager responsible for work pertaining to HVAC, controls, and other mechanical building systems.

---

## Relevant Experience

Since graduating from the Georgia Institute of Technology (BSME, 1990), Mr. Fitch has been working in the field of mechanical and automation systems design for over seventeen years and has been a facilities systems consultant for over thirteen years.

Recent relevant experience includes:

- HVAC systems design for the City of Scottsdale's McCormick Stillman Railroad Museum Building as part of an integrated design team with Holly Street Studio, which is currently in the Construction Documents phase.
- HVAC systems design for the 80,000 square foot second floor of the Arizona State University Memorial Union compressed under a 19 week design and construction schedule with LEED Gold Certification (completed in 2008)
- Mechanical environmental control systems design and automation systems integration services for the HVAC Upgrade Project Heard Museum Downtown, Phoenix, AZ (Completed in August 2007).
- Mechanical environmental control systems design and automation systems integration services for the Heard Museum North Satellite facility in Scottsdale, AZ as part of an integrated design and construction team with Holly Street Studio and Brignall Construction (completed in June 2007).
- Climate control systems design for the *HOME: Native Peoples in the Southwest Exhibit* at the Heard Museum in Phoenix, AZ. Responsibilities included project management, mechanical/controls design, field technical services, and system commissioning (Completed 2005).
- Mechanical design, systems integration, programming and commissioning of numerous open-loop and closed-loop geo-exchange (a.k.a. geothermal) systems throughout New England.
- Design of the US Coast Guard Barracks at Stations Gloucester, Merrimac and Pt. Allerton, MA. Responsibilities included mechanical design, and controls programming, start-up and commissioning (Completed 2006)
- Design consultant for numerous government and municipal agencies such as the National Park Service, the U.S. Fish and Wildlife Service, Architect of the U.S. Capitol, Town of Hamden, CT, City of Scottsdale, AZ, U.S. Coast Guard, U.S. Air Force Reserve, and Guilford Fire Department, CT.
